Hello Aaron,

   If you are looking for creative analytics, techno-savvy, a goal-focused team member who can provide end to end solutions for the data analysis. Then I urge you to consider the enclosed resume detailing my background and qualifications.

My expertise lies in successfully analyzing, summarize, data modeling and perform data mining on different data sources. I have hands-on experience on Tableau, Python, R programming, SQL, PHP, Java, HTML, CSS3, JavaScript, Jquery, Bootstrap, Microsoft Excel and Microsoft Suite products. Additionally, I possess pre-eminent knowledge regarding business analytics, data management, working with people, delivering information.

The following achievements demonstrate my qualification for this position:
- Earned a Master's degree in Business Analytics from Texas A&M University-Commerce with certification in Google Analytics and T-SQL.
- Demonstrating effective research, presentation, and time management abilities.
- 1+ years experience in creating a dazzling report, data modeling, and data mining using R Programming, Google Analytics, and Tableau.
- 2+ years experience PL/SQL and working with a global client.
- Analyze and summarize social marketing and marketing data.

My proven success in driving the achievement of goals and objectives, along with my superior organization and leadership skills, will contribute immensely to the success of Rabbit company.

Thank you for your consideration; I look forward to speaking with you soon.

Best Regards,
Ishwar Pawar.
